

EMERGO™

Lojer Merivaara multipurpose patient trolley

LOJER® *For easy care*

Main features:

1. Modular structure that allows several different configurations
2. Clear and easily controllable functions
3. It is easy and light to carry out different care positions

The multipurpose Emergo patient trolleys (stretchers) are used for patient transportation, emergency, recovery, ICU and minor procedures. The safe and sturdy construction makes it ideal for heavy use. The versatile range of options and adjustments ensure efficient patient transfer, patient comfort and ergonomic working positions for health-care staff. The adjustable mattress base provides comfortable positions for patients to recover eliminating unnecessary patient transfer from the trolley (e.g. in sitting position).

Large, easy rolling castors provide excellent mobility and the optional fifth wheel improves overall mobility reducing the strain for the staff. Emergo has many attachment points for the IV-rod and other accessories. The wide range of accessories available will serve the demanding needs of nursing staff for many years.

The range:

- 6250: 2-part bed section with hydraulic height adjustment and gas spring assisted Trendelenburg and back section
- 6270: 2-part X-ray bed section with hydraulic height adjustment and gas spring assisted Trendelenburg and back section
- 6280: 2-part X-ray bed section with subframe, hydraulic height adjustment and gas spring assisted Trendelenburg and back section
- 6350: 3-part bed section with hydraulic height adjustment and gas spring assisted Trendelenburg, back section and leg section
- 6370: 3-part X-ray bed section with hydraulic height adjustment and gas spring assisted Trendelenburg, back section and leg section
- 6380: 3-part X-ray bed section with subframe, hydraulic height adjustment and gas spring assisted Trendelenburg, back section and leg section

Factory-assembled options and accessories

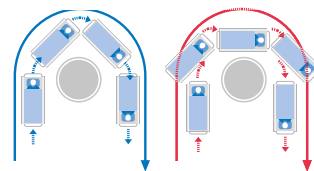

Castors central locking antistatic
Ø 200 mm
Fixed, without castors (eg. for ships).

On the left is shown how the turning
radius decreases with the 5th wheel.
On the right the same situation
without the 5th wheel.

Storage

ABS storage box
100006620 large
100006622 large, for dual pedals
100006625 large, for fifth wheel
100006626 small, only with large storage box
(Not compatible with fixed height frame.)

Wire basket under back section
100000582

Wire basket under foot section
100000583
(Not compatible with 5th wheel.)

Accessory basket (requires trolley end)
128009784

Accessory holders and rails

Paper roll holder
100000733

Accessory rail (pair) 700 (replaces side
rail, arm rest in picture not included)
100000700
Arm rest 100000125

Oxygen bottle holder 589
100000589 for 5 kg bottles
100005860 for 2 kg bottles

Infusion rod holder 5785
100005785

Infusion rods

Infusion rod, 4-hooks
100000499

Fixed, foldable infusion rod for
subframe
100006678

Other accessories

Hygienic and antistatic mattresses
Size 650mm x 1950mm
Thickness 50mm, 80mm or visco-elastic
100mm

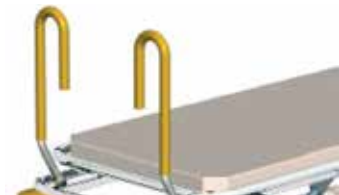

Patient restraining straps (set)
100000790

Side rails (pair)
100006713 chromed/yellow

Push bar, foldable
100006793 chromed/yellow
padding
100006795 epoxy coated/yellow
padding

Long push bars, detachable (pair) 6770
10000 6770 chromed, yellow padding

Trolley End 567
100000567
